ADMISSIONS OPEN

OFFERED TECHNOLOGIES

01

Electrical Technology

The Electrical Technology Program is an instructional program that prepares individuals to apply technical knowledge and skills necessary to install, operate, maintain and repair electrically-energized residential, commercial and industrial systems, and DC and AC motors, controls and electrical distribution panels.

02

Mechanical Technology

This program is designed to prepare students for employment in the field of mechanical design and drafting, with an in-depth course of study in the technological aspects of the design profession.

03

Computer Information Technology

Undergraduates have the opportunity to participate in research investigating topics such as artificial intelligence, human-computer interaction, and theoretical computer science.
